AZIsotopes Corp Announces FDA Acceptance of Drug Master File for Strontium-82

Bunker Hill, Indiana, USA – January 28, 2026 – AZIsotopes Corp (AZI), a leading provider of medical radioisotopes, today announced that the U.S. Food & Drug Administration (FDA) has accepted the company's Drug Master File (DMF) for its Strontium-82 (Sr-82) Radiochemical Solution product. The accepted DMF demonstrates AZI's commitment to quality and regulatory compliance for this critical medical isotope.

"The acceptance of our Strontium-82 Radiochemical DMF by the FDA is a significant milestone for AZI and underscores AZI's robust manufacturing and quality systems," said G. Wade Brooksby, President and CEO of AZI. *"This acceptance is a crucial step in ensuring a reliable, high-quality supply of Sr-82 for the radiopharmaceutical industry, ultimately benefiting the patients who rely on diagnostic imaging procedures."*

Strontium-82 is a key component in the manufacturing of Rubidium-82 (Rb-82) generators, which are essential tools in Positron Emission Tomography (PET) diagnostic imaging. Rubidium-82 is a short-lived radioactive agent used for myocardial perfusion imaging (MPI) to assess coronary artery disease. The Sr-82 decays to produce the Rb-82, and the generator systems allow for the on-demand production of the diagnostic agent at hospitals and clinics. This provides a convenient and readily available source for rapid, non-invasive assessment of heart function and blood flow. The availability of high-quality Sr-82 is paramount for the efficacy and safety of these PET scans.

About AZIsotopes Corp

AZIsotopes Corp is headquartered in Bunker Hill, Indiana, and is dedicated to the reliable production and supply of radioisotopes essential for nuclear medicine diagnostics and therapies. Utilizing advanced cyclotron and processing technologies, AZI supports global

pharmaceutical companies and research institutions in developing next-generation radiopharmaceuticals. To learn more, visit our website at www.azisotopes.org or reach us at the contact information below.
